Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

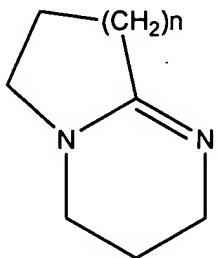

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

The rejection has been withdrawn with regard to Madaj et al. (US 5889068) in view of Simpson (US 5733945) solely because Madaj, et al. and Simpson, et al. do not disclose teach or fairly disclose applicant's particular catalyst composition.

Madaj, et al. disclosed tin ethyl hexanoate, isocyanates, bicyclic tertiary amines and quarternary ammonium salts reacted with polyether polyols a bicyclic tertiary amine (DABCO S-25) and Simpson disclosed in the reference citation, "The above discussed and other problems and deficiencies of the prior art are overcome or alleviated by the process for manufacturing polyurethane of the present invention, nickel acetyl acetonate catalyst used in the manufacture of polyurethanes and particularly polyurethane foam, is replaced with a more environmentally friendly organometallic catalyst, specifically metal acetyl acetonates such as those selected from the group of ferric, ferrous, cupric and zinc. The preferred embodiment of this invention utilizes iron acetyl acetonate due to its relative stability, good catalytic activity and lack of toxicity." which gave the motivation to combine for the improvement.

The lack of the specific bicyclic tertiary amine compound represented by formula 2:

breathes novelty into the applicant's combination of materials.

Newly cited prior art fails to teach or disclose this particular embodiment of applicant's claimed catalyst composition. As this particular combination of materials has not been previously made available in catalyst composition, a method for producing a polyurethane resin containing said catalyst composition would also necessarily not have been used.

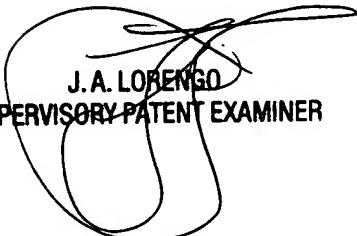

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
